PRODUCT FINISHING EQUIPMENT SPECIALISTS

News Letter 13, September 2017

Trucoat offer a **FREE** powder survey. This gives you the opportunity to see the savings for yourself on paper, offering you a structure to your decision to change to the Gema OptiFlex®2 range. We can then compare against your existing unit and also give you an example of a finance deal. Please don't hesitate to contact us to arrange a FREE powder Survey / followed by a demo today! www.trucoat.co.uk

Alloy Wheel Industry

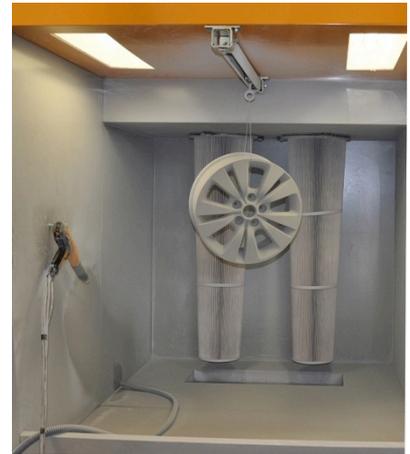

Trucoat have lead the way with the Gema product into most of the leading Alloy Wheel Refurbishes over the years. The Optiflex2 System has become the class leader in this ever expanding industry. Companies like The Wheel Specialists, Pristine Wheels, Alloyart, Paint It and Ultimate Alloys to name a few. All these companies run the Gema Optiflex system, offering the end customer the highest quality of finish achievable with powder.

Trucoat have a solution to almost all application, weather its applying from a box, small batch colours or supplying powder lacquerer from a hopper through 1 to 20 guns, we have the equipment.

Collection of the waste powder is not an issue, you can even reclaim it if you want!

The Gema Optiflex2 System is so bespoke, you will want a test drive!

BOOK YOUR TEST DRIVE TODAY BY CALLING MARTIN ON 07977 245133

Please contact Martin on **07977 245133** or Steve on **07971 757713** for more information or to book a demo. E-mail trucoat@btinternet.com or www.trucoat.co.uk
